The TWOST “Training Without Stereotypes” Consortium has designed a self-assessment tool, for the identification of gender based gaps within youth organizations in order to help to improve gender policies within youth organizations in the EU. With the adherence to the TWOST project, broad context of organizations (youth organizations, national authorities, sport clubs, etc.) subscribe the TWOST Memorandum of Understanding (MoU), which is related to the context and main objectives of the project .

TWOST -Training Without Stereotypes MoU

The “TWOST - Training without stereotypes” MoU establishes the framework for the cooperation between TWOST Members organizations and competent affiliated stakeholders in order to test TWOST self assessment tool.

The overall goal of the project is to strengthen the prevention and support the fight against stereotypes and gender violence among **youth workers, young people** in Europe through piloting of digital innovative resources and inclusion of young people with fewer opportunities.

The specific objectives of the project:

- To promote Stereotypes and Gender Equality Awareness, and to reduce unconscious bias in particular through research on existing studies, tools and methods
- To develop and disseminate non-formal education practical tools for youth workers in the field of identification and prevention of stereotypes and gender-based violence.
- To strengthen the role of youth workers in the fight against stereotypes and gender discrimination
- To promote social inclusion and active citizenship of the socially excluded young people on a European level

The “TWOST” MoU aims to establish mutual trust between from one side TWOST consortium and on the other side potential affiliated stakeholders in order to test a self assessment tool and increase the awareness among youth workers regarding the gender equality.

the TWOST consortium declares

to guarantee quality of all deliverables of the TWOST project in respect and fully compliance with all the TWOST documents, guidelines and standards. TWOST consortium will ensure

The TWOST affiliated stakeholders mutually agree to respect all outcomes and procedures of the TWOST project stated and early designed in the project proposal submitted to NA . They agree to :

- Participate in the testing phase of the TWOST self-assessment tool; Within the project the TWOST consortium partners have identified two testing phases for the TWOST self assessment tool. First testing phase will take place within TWOST project life, when first release of the self assessment tool will be done.

- Ensure the dissemination of the tool in the organization's network; the second party of this MoU will guarantee the dissemination of the testing result, within its network and will publish on their website or social media information regarding the participation in the project.
- Allow the use of the organization's name, for the reports on the tool use;
- Publicate on the organisation's website the results/information regarding tool

The TWOST affiliated stakeholders will gain free access to all the databases of TWOST/SWOST/FREASCO projects. The following database will contain in particular a number of materials, guidelines and other types of materials that have been used during the development of the project methodology . Organizations signed the MoU will get in addition to the standard database access to a broader number of resources used during the design within the project.

The TWOST affiliated stakeholders will be invited to be part of the Gender-Balance network. The network will unite different types of stakeholder who will be updated on the monthly basis through the newsletter on the state of art of the project. Moreover, new initiatives will be sheared with affiliated partners in order to participate in possible common projects and initiatives.
